

TELECOM

HYS Enterprise Helps Youfone Cut Down the Billing Process from Two Weeks to Two Days 123

Youfone is one of our partners from the telecom industry. They've been working with us for five years. We helped Youfone grow their number of customers from 70,000 to 270,000 and extend their services to TV and internet.

The logo for Youfone, featuring the word "youfone" in a lowercase, white, sans-serif font, centered on a dark blue background.

Technologies Used

.NET C# MS SQL

About our client

Read this success story to find out how we built a microservice architecture for Maxeda to make their work easier and faster.

Founded in 1999

Headquartered in Amsterdam, the Netherlands

Owns several brands: Brico, Praxis, Plan-It, and Formido (we've worked with Praxis and Brico)

To begin, you need a clear understanding of the overall

Client's Problem

Our client's website had an old monolithic system, and supporting it required a considerable amount of time and resources.

The system was slow, and there were a lot of obsolete elements.

Our client has several development teams. Our HYS team was put in charge of everything related to client services (creating orders, processing payments and orders, and so on).

What our client needed

Our client needed a more flexible system and a complete update to their website
